Project Title

Dedicated Staffing Partnership for Scalable Product Development

Scope

The engagement involved sourcing, onboarding, and managing skilled technology professionals for various key roles across frontend, backend, mobile, and full-stack development. The goal was to provide seamless resource scalability, technical excellence, and long-term delivery continuity.

Challenges

- Need for rapid onboarding of skilled developers to meet growing project demands
 - Shortage of specialized resources in technologies like .NET, Vue.js, and Android
 - High expectations for quality, productivity, and long-term retention
 - Flexible engagement model for both short- and long-term projects
-

Solutions

- Provided vetted developers for key roles including frontend (Vue.js), backend (.NET), Android, and full-stack
- Deployed a flexible staffing model to support both ongoing product enhancement and new feature rollouts

- Managed end-to-end recruitment, onboarding, and technical evaluations
 - Ensured quick ramp-up and cultural alignment of the team with the client's in-house processes
-

Tech Stacks Covered

- Frontend: Vue.js, HTML5, CSS3, JavaScript
 - Backend: .NET, C#, ASP.NET
 - Mobile: Android (Java/Kotlin), RESTful APIs
 - Tools: Git, Jira, Visual Studio, Postman
